WORK EXPERIENCE

OCTOBER 2020 TILL PRESENT

Reverse engineer at Alion Science:

Reverse engineering of C++ x86 Windows software.

- Use IDA Pro, WinDbg, and Ghidra, including scripting.
- Reverse engineer networked GUI applications and associated DLLs.
- Write reports for the customer on the reverse engineered software.

OCTOBER 2018 TILL OCTOBER 2020

Information Systems Security Engineer at Alion Science:

To develop software and evaluate security measures.

- Develop big data applications in hadoop, python, php, and java, using the Big Data Platform.
- Work in a team using agile software development.
- Develop a penetration testing team and methodology.
- Perform penetration testing.

JUNE 2017 TILL OCTOBER 2018

Network Security Analyst at MacAulay-Brown:

To manage and secure MacAulay-Brown's network.

- Suggest and implement security policies.
- Manage and respond to incidents from Sophos UTM, Tenable SecurityCenter, and Symantec Endpoint Protection.
- Automate tasks using PowerShell and Bash.
- Perform penetration tests, especially of Active Directory.
- Ensure NIST and ISO compliance.

JANUARY 2016 TILL MAY 2017

Network Security Analyst at Clemson University:

To monitor activity on Clemson's network, investigate security events, and perform vulnerability assessments.

- Utilize network monitoring systems such as Splunk, Bro IDS, Proofpoint, and StealthWatch to investigate and report intrusions.
- Perform penetration tests and vulnerability assessments.
- Respond to security alerts from IPS.

MAY 2016 TILL MAY 2017

Undergraduate Research Intern at Clemson University:

To design and develop a social networking application with enhanced privacy for user content sharing.

- Develop a web application using PHP and MySQL.
- Use and create RESTful APIs.
- Help review and write scientific papers for publication.

EDUCATION

AUGUST 2015 TILL MAY 2017

Clemson University

Bachelor of Science: *Computer Science (3.59)*

PROJECTS

CAROLINACon

APRIL 2018

Gaining Access with Spear Phishing

I gave a presentation on the entire process of a sophisticated spear phishing campaign, from reconnaissance to delivering the payload and bypassing modern defenses.

CERTIFICATIONS

CompTIA

JANUARY 2018

Security+

Security+ incorporates best practices in hands-on trouble-shooting to ensure security professionals have practical security problem-solving skills.

SCALED AGILE, INC.

DECEMBER 2019

Scaled Agile Framework for Teams

The SAFe for Teams course builds the skills needed to become a high-performing team member of an Agile Release Train (ART)

EC-COUNCIL

JANUARY 2020

Certified Ethical Hacker (CEH)

The Certified Ethical Hacker (CEH) program is the most comprehensive ethical hacking course on the globe to help information security professionals grasp the fundamentals of ethical hacking.

SKILLS

Software Development: Python, Java, C/C++, Go, HTML, PHP, Javascript, SQL, MongoDB, Flask, PowerShell, Bash

Natural Language Processing: T5, BERT, GPT-3, RNN, VAEs

Cybersecurity: Computer Network Exploitation, Web Exploitation, Network Defense, Incident Response, Active Directory, Reverse Engineering, Windows Internals, System Administration
